## California Community College District Boundaries

## Hartnell College Overview:

- Over 17,000 total students annually
- 85% receive financial aid
- 73% of students are Latino/Hispanic
- 90% unprepared for college level math
- 85% unprepared for college level English
- Less than 10% of adults in District have a bachelor's degree or higher.
- 39% of adults over 25 years old do not have a high school diploma.
- Poverty rate is 22.3% in Salinas compared to 14.4% in California.

## HC-Strategic Plan / Six Priorities

1. Student Access
2. Student Success
3. Employee Diversity and Development
4. Effective Utilization of Resources
5. Innovation and Relevance for Programs and Resources
6. Partnerships with industry, business, agencies, and education

# Early Support Program (ESP)

Proactive/Intrusive Strategies for  
Increasing Student Engagement

The goal of the Early Support Program is to provide additional proactive/intrusive support services to our most at risk groups of students on campus.

## ESP Services Include:

- 1) In class presentations.
- 2) Work with **faculty referrals**.
- 3) Work directly with **student drop-ins**.
- 4) Work with students on Academic **Probation & Dismissal**.
- 5) Embed ourselves **in basic skills level** Math and English courses.

Faculty lead workshop for students put on in collaboration with the ESP program.

ESP works closely with faculty to identify students that are struggling in their courses.

ESP team members come up with an Educational Service plan based off the individual needs of each students, and can include:

- 1:1 counseling
- Appointments with a tutor or specialist in the Panther Learning Lab
- Content specific small group workshops

The Early Support team also works directly with students placed on Academic and Progress Probation level's 1, 2 and Dismissal (level 3). Services for students in these levels included:

- Direct outreach to EACH student placed on academic dismissal, i.e. multiple phone calls and emails.
- 1:1 academic coaching
- Academic reinstatement & registration workshops
- Follow up appointments in weeks 1, 6 and 12.
- Reinstated students are closely monitored as a cohort by one of our ESP team members.

Classroom Embedded Model - The ESP program now embeds counselors and staff inside basic skills level courses to be proactive in reaching out to struggling students.

- Team member are assigned a designated number of courses to track and provide support services throughout the semester.
- The courses being targeted are basic skills level English and Math.
- Being granted access within course management systems allows for greater level of efficiency and intervention.

## The Benefits of Canvas (or Etudes, Blackboard, Edmodo, ALEKS etc.):

(1) Provides ESP team with access to students progress, attendance and participation, (2) Allows ESP to communicate directly with students/subset of students within a class, and (3) Allows ESP to share notes with faculty.
